

20 HAND FLANGER

The Flagler Hand Flanger turns a 7/32" tall flange on inside or outside radii as small as 1 3/4". Releasing top roll for the removal of a closed flange. This unit clamps to any shop bench and can be operated either left or right handed.

FLAGLER LUBAROLL

Heavy duty Degalvanizer & Cleaner
for Machine Rollers and Punch Press Dies.
Sold in case quantities of (12) 15 oz. cans.

20 BUTTON PUNCH POWER FLANGER

The 20 Button Lock Power Flanger is designed for curved pieces utilizing the button lock. The machine is a 2 step operation. Operator first forms the flange on the bottom level, next inserts the piece into the top level to punch the buttons. It features the same heavy duty oil bath gear reduction as the Flagler 16 & 18 Ga. Power Flangers as well as the flange follower guide for ease of operation.
