TK Cheek Bender

For real production! This beefy little 24 inch, two sided cheek bender is built to last. Bench mounted, this machine comes ready for service. Consistent bends are a certainty due to the two-way trunnion keeping the bending apron in position at the origin of the bend. – 22.2mm). Tin Knocker two- sided Cheek Bender bends up to 24" (2FT) with 20GA mild steel capacity. It adjusts for 1/4" to 7/8" bends.
